POTENTIAL DATA RESOURCES (If necessary):

1. https://finance.yahoo.com/
2. Data resources for covid
3. A collection of city related data from NYC* https://opendata.cityofnewyork.us/
4. Stanford Large Network Dataset** https://snap.stanford.edu/data/
5. Aminer Social Network Analysis datasets https://www.aminer.org/data-sna
6. Smaller Specific Network Instances
   a. Informal communication within a sawmill on strike
      http://vlado.fmf.uni-lj.si/pub/networks/data/esna/strike.htm
   b. Friendship and unionization in a hi-tech firm
      http://vlado.fmf.uni-lj.si/pub/networks/data/esna/hiTech.htm
   c. Student government discussion network
      http://vlado.fmf.uni-lj.si/pub/networks/data/esna/student.htm

*Hackers can be creative using some of the datasets
**Has all sizes and kinds of large networks. Social networks in general would be helpful.
